CAPE LIGHT COMPACT Request for Proposals
For
All-Requirements Retail Electric Power Supply for Municipal and Government Accounts

1. Introduction
The Cape Light Compact (the “Compact”) was formed in 1997 through an inter-governmental agreement and consists of the twenty-one Cape and Vineyard towns and two counties in the Commonwealth of Massachusetts (the “Member Municipalities”) with the objective of securing competitive power supply, administering energy efficiency programs and providing for consumer advocacy. For further information on the Compact and its programs, go to http://www.capelightcompact.org.

In issuing this Request for Proposals (“RFP”), the Compact is acting as agent for the Member Municipalities and for other government electric account holders located within the Member Municipalities (collectively, the “Participants”). There are approximately 1,400 municipal electric accounts for the Participants located on Cape Cod and Martha’s Vineyard, which represents approximately 80,000 MWh of annual retail sales. The Compact seeks proposals to serve this electric load with all-requirements retail electric power supply. All-requirements retail power supply for all of the accounts of the Participants will commence with the July 2017 meter read dates. Bidders are invited to propose contract delivery periods of a minimum of one (1) year to a maximum of three (3) years. As described below, price offers must be fixed annually for each contract year; seasonal, time-of-day, variable, or indexed pricing will not be permitted.

The selected bidder must execute a Municipal Competitive Electric Supply Agreement (“MCESA”), as supplied or amended, for the provision of all-requirements retail power supply, the form of which is available for bidder review as set forth below.

3. Services Requested

3.1. All-Requirements Retail Electric Power Supply

The Compact is requesting proposals for delivery of all-requirements retail electric power supply to the Participants. All-requirements retail electric power supply generally includes, but may not be limited to, electrical energy; capacity; ancillary services; renewable energy resources as mandated by G.L. c. 25A, §11F and any regulations, orders or policies adopted pursuant thereto; transmission and distribution losses; and transmission service. The specific definition of all-requirements retail electric power supply and associated responsibilities are stated in the MCESA, which will be provided to bidders upon receipt of a signed Confidentiality Agreement (see Section 2.3).

A supplier of all-requirements retail electric power supply will be responsible for all load and supply scheduling, scheduling of network and other transmission service, and all other transactions and communications with ISO New England and the New England Power Pool necessary for the delivery of firm power supply to Participants. In addition, a supplier of all-requirements retail electric power supply will be obligated to provide all services, directly or through contract, in order for the local distribution company to be able to bill customers; handle customer complaints and service calls; arrange all EDI and other functions and otherwise provide competitive supply to end-use customers.

A supplier of all-requirements retail electric power supply will have an obligation to serve all load for Participants that agree to purchase power pursuant to the executed MCESA. Many Participants have installed or will install renewable energy projects within their municipalities. Some of these renewable energy facilities are behind the meter, i.e. energy consumption has been reduced, and some are virtual net metered pursuant to Massachusetts law (G.L. c. 164, §§138 – 140 and 220 C.M.R. §18.00), i.e. actual energy consumption has not been reduced. Bidders should carefully review usage information since usage can vary widely over time due to the installation of these renewable energy facilities. Electric account information for the Participants will be provided to bidders upon receipt of the signed Confidentiality Agreement (see Section 2.2).
3.2. Term Options

Delivery of all-requirements retail electric power must commence on the July 2017 meter read dates for each electric account. Bidders may propose contract terms of a minimum of one (1) year and a maximum of three (3) years.

4. Proposal Format

4.1. Qualifications

Proposals must include the following information:

a. Contact(s). Name, business address, phone number, fax number, and e-mail address for the principal officer responsible for submission of the proposal and for the principal officer responsible for administration of the contract.

b. Business Information. Legal trade name; date of incorporation or organization; state of incorporation or organization; list of officers and directors; list of affiliates, if any; a copy of previous two years of Annual Reports to Stockholders, or other audited annual report; copies of final year-end FERC Form 1 filings for 2014 and 2015, if applicable; current bond rating(s) by Moody’s Investor Services, or other rating agencies, if applicable; latest audited financial statement(s) with confirmation of no material or adverse changes since the date of statement(s).

c. Business Qualifications. Registration from the Executive Office of Energy and Environmental Affairs as a competitive supplier in Massachusetts; New England Power Pool membership; certification of other regulatory approvals necessary to provide all-requirements retail electric power supply; Certificate of Good Standing from the Massachusetts Department of Revenue, or similar certification that all state taxes have been paid in state of incorporation or organization, if applicable; evidence of qualification to do business in Massachusetts, if applicable.

d. Business Status. Statement as to whether business or affiliate has commenced, or been forced into, any insolvency proceeding within the last five (5) years; statement as to whether business or affiliate has been subject to any investigation by a state or federal agency within the last five (5) years; statements as to the number, if any, of consumer complaints filed with a state, federal, or local agency, against the business or affiliate within the last five (5) years.

4.2. Price Proposals

Bidders shall submit their price proposals by completing a Bid Form, which will be provided via e-mail to bidders upon receipt of a signed Confidentiality Agreement (see Section 2.3). Price proposals must be expressed in dollars per megawatt-hour.

Bidders may submit price proposals for contract terms that range from a minimum of one (1) year to a maximum of three (3) years. Bidders are invited to submit price proposals for one or more contract terms.
Bidders must submit a separate price proposal for each year of the proposed contract term based on the MCESA, as supplied, or amended through contract negotiation. The Compact will not accept the bidder’s contract as a complete substitution of its MCESA. As a general matter, bidders proposing prices with no or limited amendments to the form of MCESA will be preferred to prices conditioned upon more extensive amendments to the form of MCESA.

In order to submit a price proposal, Bidders must accept the Compact’s language in Sections 2 (Accounts) and 3 (Material Deviation in Use) of Exhibit A to the MCESA. In addition, for any contract year included on the bid form, bidders must make price proposals that do not contain a change of law provision. Bidders may make additional price offers that contain the Compact’s optional change of law provision included in Exhibit A to the MCESA. Any other language proposed by a bidder for Exhibit A to the MCESA regarding a Participant’s change in load or use and/or change in law will be rejected by the Compact.

Prices quoted for any contract year of the MCESA term must be fixed for the duration of the contract year; seasonal, time-of-day, variable, or indexed pricing will not be permitted. All price proposals must include all costs related to supplying the required services, except as otherwise set forth herein. Since prices are fixed, the Participants will not pay any separate or additional costs which are considered as pass-through for reliability or other costs associated with delivery of all-requirements retail electric power supply in the SEMA load zone, except as otherwise set forth herein. Price proposals for any contract year of the MCESA term will apply uniformly to all Participants, regardless of rate class.

The Compact and Participants will also pay no costs, fees or other expenses incurred by the bidder in preparing its response to this RFP. These costs, expenses or other amounts may not be included in a price proposal and may not be recouped under the MCESA.

**Bidders should not place any additional written conditions on their price proposals beyond what is required on the forms provided.** The Compact anticipates that the accepted bidder will enjoy participation by a substantial majority of the Participants, if not all. Price proposals will be considered binding on a bidder only if all Participants accept the proposal. If one or more Participants decline to accept a price proposal that the remaining Participants wish to accept, a bidder may, at its option, honor the proposal for the interested Participants.

### 4.3. Proposal Expiration

Price proposals will be deemed valid until 4:00 p.m. EST on Wednesday, November 16, 2016. Bidders must indicate how long beyond the minimum period proposals will be held open at the price(s) offered. Given the time frame for evaluation, the Compact reserves the right to request that bidders re-price their proposals. At its sole discretion, the
Compact may opt to negotiate with multiple bidders, as shall be considered in the best interest of the Participants.

Accompanying each proposal, each bidder must include a signed Binding Bid Agreement. The Binding Bid Agreement will be provided to bidders upon receipt of a signed Confidentiality Agreement (see Section 2.3). The signatory to the Binding Bid Agreement must certify that he/she has the authority to act on behalf of, and to bind the bidder to perform the terms and conditions of the MCESA at the prices and for the load amounts specified in its proposal(s).

5. Supply Agreement

A Form of the MCESA, to be executed as a result of this RFP, will be provided via e-mail to bidders upon receipt of a signed Confidentiality Agreement (see Section 2.3). The MCESA contains the parties’ rights and obligations for providing and receiving all-requirements retail electric power supply.

Proposed amendments to the MCESA are to be provided by bidders by close of business on Monday, November 7, 2016. It is the Compact’s intent to meet, or have a conference call, with bidders proposing amendments to the MCESA before price proposals are submitted. Bidders should have their team/decision-makers available during this time frame. Bidders are strongly encouraged to propose only non-substantive changes to the MCESA.

6. RFP INFORMATION

6.1 Web Site

Information related to this RFP will be posted on the Compact’s website (http://www.capelightcompact.org/rfp/). The Web Site will include:

6.2 Additional Information

The Compact will provide the following additional information to bidders that have submitted a signed Confidentiality Agreement (see Section 2.3):

1. Form of MCESA
2. Bid Form for All-Requirements Retail Electric Power Supply
3. Binding Bid Agreement
4. Authorization Form authorizing EVERSOURCE to release account usage data
5. Electric account numbers for all the Participants
6. Annual usage data for each Participant account
7. Aggregate hourly load data for the Participants’ accounts

The Compact makes no representations whatsoever as to the accuracy or completeness of the load data for the Participants’ electric accounts which will be provided by EVERSOURCE. **Bidders are expressly cautioned that they must independently test and/or verify such data to the extent they believe appropriate.** The Compact assumes no duties or responsibilities to check, update or otherwise assess the data provided.

7. **Evaluation of Proposals**

The Compact may choose more than one proposal from responsive and responsible bidders for further consideration and evaluation. Proposals that are incomplete, not properly endorsed, or signed, or which are otherwise contrary to these instructions may be rejected as non-responsive by the Compact. Conditional proposals will not be accepted.

The Compact will negotiate the form of amendments to the MCESA, if any, with each of the selected bidders. The Compact, in its sole discretion, will select the winning bid based on price, the terms of the modified MCESA, if any, and other factors described in this RFP. The Compact may accept any portion of a bid, waive any irregularities and/or formalities, investigate the ability of the bidder to honor a bid, select a bidder who does not submit the lowest bid and accept any bid as shall be considered in the best interest of the Participants.

8. **Notification of Award**

Any contract resulting from this RFP shall be deemed as having been awarded when formal written notice of acceptance of the bidder’s proposal has been duly served on the successful bidder.

Upon bid acceptance, the Compact will provide a letter of commitment to the bidder. The Compact reserves the sole discretion unto itself to determine whether to pursue competitive all-requirements retail electric power supply prior to selecting a winning bidder. Absent a signed agreement between the Compact, a Participant and the winning bidder, no Participant has any obligation to purchase all-requirements retail electric power supply from the winning bidder.

9. **Execution of the MCESA**

All Participants that choose to accept a price bid will either be present on the bid due date to execute an MCESA or will execute a binding written agreement in advance of the bid due date authorizing the Compact to accept a bid and execute the MCESA on behalf of such Participant on the bid due date.

In addition, in the event of disclosure of Confidential Load Information in violation of this Agreement, the Company shall pay the Compact fifty thousand dollars ($50,000.00) as liquidated damages. The sum is agreed upon as liquidated damages and not as a penalty. The parties hereto have computed, estimated, and agreed upon the sum as an attempt to make a reasonable forecast of probable actual loss of the Compact’s competitive advantage because of the difficulty of estimating with exactness the damages which will result.
