On October 31, 2018, the Towns of Aquinnah, Barnstable, Bourne, Brewster, Chatham, Chilmark, Dennis, Edgartown, Eastham, Falmouth, Harwich, Mashpee, Oak Bluffs, Orleans, Provincetown, Sandwich, Tisbury, Truro, Wellfleet, West Tisbury, and Yarmouth, and Dukes County, acting together as the Cape Light Compact JPE (“Compact”), filed with the Department of Public Utilities (“Department”), a petition for approval of a three-year energy efficiency plan, covering calendar years 2019 through 2021 (“Three-Year Plan”). The Compact filed its Three-Year Plan pursuant to An Act Relative to Green Communities, Acts of 2008, c. 169, § 11 (“Green Communities Act”) and Investigation by the Department of Public Utilities on its own Motion into Updating its Energy Efficiency Guidelines Consistent with An Act Relative to Green Communities, D.P.U. 08-50 (2008); D.P.U. 08-50-A (2009); D.P.U. 08-50-B (2009); D.P.U. 08-50-C (2011); D.P.U. 08-50-D (2012). The Department has docketed this matter as D.P.U. 18-116.

The Green Communities Act requires the Commonwealth’s electric and gas distribution companies, and municipal aggregators with certified efficiency plans, (“Program Administrators”) to develop energy efficiency plans that provide for the acquisition of all available energy efficiency and demand reduction resources that are cost-effective or less expensive than supply. G.L. c. 25, § 21. To accomplish this goal, Program Administrators are required to develop three-year energy efficiency plans in consultation with the Energy Efficiency Advisory Council (“Council”) and submit such plans to the Department for review. G.L. c. 25, § 21. The Green Communities Act requires the Department to: (1) consider the plan; (2) provide an opportunity for interested persons to be heard in a public hearing; and (3) within 90 days after the submission of the plan, issue a decision on the plan that ensures that all energy efficiency and demand reduction resources that are cost-effective or less expensive than supply have been identified and captured by the Program Administrator. G.L. c. 25, § 21.

The Compact’s proposed Three-Year Plan includes energy efficiency programs for residential, low-income, and commercial and industrial customers. The Three-Year Plan also incorporates the Compact’s Residential Conservation Service filing pursuant to

G.L. c. 164, App. § 2-7(h). The Compact's proposed budget for the three-year period is \$162,931,023 (i.e., \$45,681,618 in 2019, \$55,799,419 in 2020, and \$61,449,986 in 2021).

If the Compact's Three-Year Plan is approved as proposed, the Compact states that customers could experience the following bill impacts:

- A residential customer (R-1) using 516 kilowatt-hours per month could experience a monthly bill increase of \$1.31 or 1.1 percent in 2019; a monthly bill increase of \$3.96 or 3.3 percent in 2020; and a monthly bill increase of \$1.92 or 1.5 percent in 2021;
- A low-income residential customer (R-2) using 488 kilowatt-hours per month could experience a monthly bill decrease of \$0.33 or 0.5 percent in 2019; a monthly bill increase of \$1.00 or 1.5 percent in 2020; and a monthly bill increase of \$0.43 or 0.6 percent in 2021; and
- Bill impacts for commercial and industrial customers will vary. These customers should contact the Compact for specific bill impact information.

Customers who participate in energy efficiency programs may experience a monthly bill decrease over the duration of the Three-Year Plan. For specific bill impacts, please contact the Compact as indicated below.
